ROXBURY:  
JOHN M. HEWES, PRINTER.  
1866.

FIRST ANNUAL REPORT  
OF THE  
STEAM FIRE DEPARTMENT.

ROXBURY, FEB. 1, 1866.

*To his Honor the Mayor and City Council :*

GENTLEMEN—In compliance with the Ordinance requiring the same, I herewith submit the Annual Report of the condition of the Fire Department. I congratulate the citizens of Roxbury on the adoption of an entire Steam Fire Department. In April last Steamer No. 3 was received and put in service, and the only remaining hand Engine Company disbanded, and the result of the past year has confirmed me that the change from hand to steam power has been a good one. The number of fires and alarms the past year have diminished nearly one half, and the loss by fire has been small. The Department, at present, consists of three Steam Fire Engines, three Horse Hose Carriages, one Hand Hose Carriage, and one Hook and Ladder Carriage. The number of members, including the Board of Engineers, is 79. The several houses belonging to the Department are all in good order excepting the one occupied by Cochituate Hose Company, which is very poor and is entirely unfit to keep the apparatus in and take proper care of the same. One Reservoir was built on the corner of Warren Street and Grove Hall Avenue the past year, and one

Hydrant attached to the Cochituate water pipe on Tremont Street, opposite the rubber works. The great want of Roxbury is an abundant supply of pure water, for domestic and manufacturing uses, and for the extinguishment of fires, and the want must soon be supplied. The Department are in want of a quantity of Leading Hose ; most of that now in use was formerly used on the hand engines, and is not suitable for steamers.
