Notes;

When Dorchester was annexed to Boston on January 3, 1870, fire alarm boxes were assigned numbers in the 300 series.

On March 26, 1891, the first 900 series numbers were assigned to boxes in Dorchester.

On April 2, 1892, there was a general renumbering of boxes in the Dorchester area. Some boxes with 300 numbers were changed and given numbers in the 900 series and other boxes with 300 numbers were changed to the high 100 series which were also assigned to boxes in South Boston.

In 1914, a new four digit number system was introduced. Numbers in the 3400 and 3600 series were assigned to boxes in the South Dorchester area.

Beginning on February 16, 1956, there was a general renumbering of fire alarm boxes in Dorchester. Some boxes with numbers in the 3400 and 3600 series were changed to numbers in the 3200 series.

The letter p next to the box number indicates phantom box.
