N. B. — Engines Nos. 2, 5 and 8 require new houses, and Nos. 1 and 13 to be enlarged. Engine No. 20 has but one pump, and, from the peculiarity of its construction, is rendered useless in line. I recommend its removal to one of the public buildings at South Boston, or elsewhere, and a new engine, to be built on the plan of No. 14, to supply its place.

SAMUEL D. HARRIS, *Chief Engineer.*
