

**GENERAL ORDER
NO. 1**

**HEADQUARTERS, FIRE DEPARTMENT
JANUARY 11, 2012**

I. HIGH COMMENDATION

On July 17, 2011 at 2050 hours Fire Fighter Vernon Allen of Engine Company 37, while off duty, witnessed a shooting at the corner of Blue Hill Avenue and Warren Street in District 7. Fire Fighter Allen called the Fire Alarm Office on his cell phone to report the incident. Without the equipment available to take proper precautions, Fire Fighter Allen immediately proceeded to perform CPR on the shooting victim. Fire Lieutenant Michael Tierney with the crew of Engine Co. 24, who arrived on scene at the same time as the Boston Police, reported a hostile environment. Fire Fighter Allen performed this action before the crime scene was secured by the Boston Police. Therefore, The Fire Commissioner is pleased to highly commend Fire Fighter Vernon Allen of Engine Company 37 and refers this case to the Board of Merit for further review.

**BY ORDER OF FIRE COMMISSIONER
RODERICK J. FRASER JR.**

II. COMMENDATION

The Fire Commissioner is pleased to commend Firefighter Terrance Edwards of Engine Company 32 for his actions performed on Monday, September 26, 2011, who, while off duty, responded to the screams of a woman calling for help at 1401 Washington St. in District 4. The woman informed FF Edwards that her infant was not breathing. A primary survey revealed the infant to be not breathing and cyanotic. FF Edwards, while instructing a bystander to call 911, determined the baby to be choking on a foreign object and began procedures to clear the object. These actions proved beneficial as the object was cleared and the baby began to breathe on its own. Engine Co. 3 and Boston EMS arrived and took over care of the baby. By his actions, FF Edwards displayed professionalism and dedication to duty. This commendation will be made part of his personnel file.

II. COMMENDATION

The Fire Commissioner is pleased to commend Radio Supervisor Joseph F. Brooks of the Fire Alarm Division. All public safety agencies across the country were mandated by the Federal government to narrow band their radio channels by the end of 2012. Radio Supervisor Brooks immediately initiated the necessary research and planning stages of this immense undertaking which included interacting with an outside vendor.

Radio Supervisor Brooks spent many months developing an elaborate plan. He attempted to anticipate every possible scenario that could occur during each phase of the strategy of keeping the radio system operating on some channels while the other channels were being narrow banded. It took a full week to complete the narrow banding part of the plan which was made more difficult by the large power outage in the Back Bay which included the Fire Alarm Office. There were also a several multiple alarm fires in the City during the conversion week complicating the process. After this difficult work was completed, every department radio had to be reprogrammed. Radio Supervisor Brooks along with two Radio Shop employees completed this task for the field's units during the first week after narrow banding and are presently finishing the Headquarters and administrative radios. Throughout this entire project, Radio Supervisor Brooks displayed professionalism and dedication to duty. This commendation will be made part of his personal files.

BOARD OF MERIT

The Board of Merit, consisting of the Chief of Department and the Deputy Fire Chiefs, has considered all meritorious acts referred to it during the year 2011. After careful consideration and study, the Board submitted the following recommendations which are hereby approved by the Fire Commissioner:

1. Case of Fire Captain Martin M. Andrews, Special Operations Division

Fire Captain Martin M. Andrews, of the Special Operations Command, Technical Rescue Group, has been a leading influence in the development of the Technical Rescue training program beginning on March 28, 2002. Captain Andrews has spent considerable time and effort creating challenging and realistic technical rescue training programs. He has constantly updated the technical rescue program by developing unique scenario-based training exercises concentrating on safety of the members and the concerns of the victims. The fruits of his efforts have been seen in many dangerous high profile Boston Fire Department successful technical rescues that have been highlighted in the media. Captain Andrews has attended several technical rescue courses each year in order to develop sophisticated training programs and to introduce new state-of-the-art equipment in the field of technical rescue. Further, he has assembled a team of dedicated, certified adjunct instructors to aid the Special Operations Command Technical Rescue Group. His hands-on approach to training and his dedication to the members of the Boston Fire Department and other regional fire departments, has increased the knowledge, skills, and abilities of the Boston Fire Department Technical Rescue Team members, and has greatly enhanced the safety of the citizens of Boston.

The Board recommends that Fire Captain Martin M. Andrews of the Emergency Planning and Preparedness Division, Special Operations, be awarded the Gerard J. Molito Award for Professional Excellence.

2. Case of Fire Fighter Kevin Bailey, Engine Company 5

On August 7, 2011, at 1841 hours, Box 2152 was struck for 8 Fenno St., District 9. The first arriving companies found a kitchen fire in an attached townhouse style home. When the crew of Ladder Company 4 entered the building they found off-duty Fire Fighter Kevin Bailey of Engine Company 5 in the act of extinguishing the fire with a garden hose. FF Bailey's quick action undoubtedly saved the home from severe damage, as the stove and cabinets were already involved in fire. FF Bailey performed these actions without the benefit of any personal protective equipment. What makes FF Bailey's decision to help even more notable is the fact that he did not have use of his left arm. Due to a line of duty injury, Fire Fighter Bailey had recently received surgery on his left arm. He was hampered by pain and a cumbersome brace at the time of the fire. The Fire Commissioner highly commended Fire Fighter Kevin Bailey of Engine Co. 5 in General Order No. 28 of 2011.

The Board recommends that Fire Fighter Kevin Bailey of Engine Company 5 be awarded the Distinguished Service Award.

3. Case of Fire Fighter Vernon T. Allen, Engine Company 37

On July 17, 2011 at 2050 hours Fire Fighter Vernon T. Allen of Engine Company 37, while off duty, witnessed a shooting at the corner of Blue Hill Avenue and Warren Street in District 7. FF Allen called the Fire Alarm Office on his cell phone to report the incident. Without the equipment available to take proper precautions, FF Allen immediately proceeded to perform CPR on the shooting victim. Fire Lieutenant Michael Tierney with the crew of Engine Co. 24, who arrived on scene at the same time as the Boston Police, reported a hostile environment. FF Allen performed this action before the crime scene was secured by the Boston Police. The Fire Commissioner highly commended Fire Fighter Vernon T. Allen of Engine Co. 37 in General Order No. 1 of 2012.

The Board recommends that Fire Fighter Vernon T. Allen of Engine Company 37 be awarded the Distinguished Service Award.

**4. Case of Fire Fighter Brian T. Coppney, Ladder Company 6
Case of Fire Fighter Philip T. Ordonez, Engine Company 18**

On July 6, 2011 at 0457 hours Box 3474 was struck for a building fire at 68 Butler St., District 8. On arrival, Engine Company 16 and Ladder Company 6 made their way to the fourth floor and observed smoke coming from apartment 3D. Fire Fighter Brian Coppney of Ladder Co. 6 and Fire Fighter Philip Ordonez of Engine Co. 18 (detailed to Ladder Co. 6) immediately forced entry and entered the apartment which was heavily charged with heat and smoke. Crawling on their hands and knees, both Fire Fighters began a search of the apartment. FF Ordonez went to the left of the fire and FF Coppney to the right. FF Coppney located an unconscious, elderly woman in the kitchen area adjacent to the fire. FF Coppney called to FF Ordonez for assistance. Both Fire Fighters dragged the elderly woman out to the hallway where FF Coppney placed his face piece on the woman. Due to the smoke condition in the hallway, the victim was moved to the landing below, where other members continued basic life support. The woman suffered from smoke inhalation and received burns to her upper arms, chest, and respiratory tract. She regained consciousness and was transported to the hospital by Boston EMS ambulance. While this rescue was the result of teamwork by all members at this incident, FF Coppney and FF Ordonez placed themselves at great personal risk under very difficult conditions. Because these actions were performed at great personal risk the Fire Commissioner highly commended Fire Fighter Brian T. Coppney of Ladder Company 6 and Fire Fighter Philip T. Ordonez of Engine Company 18 in General Order No. 27 of 2011.

The Board recommends that the names of Fire Fighter Brian T. Coppney of Ladder Company 6 and Fire Fighter Philip T. Ordonez of Engine Company 18 be placed on the Roll of Merit.

**5. Case of Fire Fighter Ballin L. Wright, Rescue Company 1
Case of Fire Fighter Gary R. Dardia, Rescue Company 1**

On March 30, 2011, at 0424 hours, companies responded to a confined space incident at the Charles/MGH MBTA Station. A MBTA electrical worker had fallen 30 feet into a shaft. The top opening to the shaft was only two feet by two feet. The worker broke both legs in the fall and was lying at the bottom of the concrete column in an area that measured only four feet by four feet. The technical rescue companies set up equipment to lower Fire Fighters Ballin Wright and Gary Dardia, both members of Rescue Company 1, into the shaft to treat the worker and package him for removal. Due to the MBTA worker's injuries, getting him up and through the small opening was time consuming and an extremely adverse rescue operation. After several attempts the worker was extricated and transported to the Massachusetts General Hospital. FF Wright's and FF Dardia's actions were performed at great personal risk due to being lowered 30 feet into a confined space and treating a patient under adverse working conditions. Their actions contributed to the patient receiving quick medical attention for his serious injuries.

Because these actions were performed at great personal risk the Fire Commissioner highly commended Fire Fighter Ballin L. Wright of Rescue Company 1 and Fire Fighter Gary R. Dardia of Rescue Company 1 in General Order No. 30 of 2011.

The Board recommends that the names of Fire Fighter Ballin L. Wright of Rescue Company 1 and Fire Fighter Gary R. Dardia of Rescue Company 1 be placed on the Roll of Merit.

6. Case of Fire Fighter Paul T. Stanley, Rescue Company 2

On October 17, 2011 at 0048 hours Box 2296 was struck for a building fire at 71 Westminster Avenue, District 9. The building is a large three story apartment building that covers an entire city block running from Westminster Avenue to Walnut Park with Wardman Road and Waldren Road running parallel front and rear.

Upon arrival Engine Co. 42 reported fire showing from the first floor of a three story brick building. First alarm companies encountered a partial building collapse with numerous trapped occupants on floors two and three yelling for help. On arrival, Rescue Co. 2 members Fire Fighter Paul Stanley and Fire Fighter Paul Flaherty began a primary search of the fire building with Fire Lieutenant Donald Mullen and Fire Fighter John MacDougall throwing a ground ladder to trapped occupants on the upper floors. FF Stanley and FF Flaherty made entry into the fire building but were driven back by heavy fire and smoke conditions and rejoined Rescue Co. 2 members outside. FF Stanley seeing an elderly woman in a second floor window ascended the ladder to remove the trapped woman. The elderly woman was having difficulty climbing out of the window. At this time Fire Fighter Steven Bradley, ICT to District 9, entered the building via the front stairwell which was heavily damaged by fire and the explosion. He made his way to the second floor apartment and assisted the woman out of the window on to the shoulders of FF Stanley.

This arduous task was compounded by the heavy duty, high impact windows which were installed in the building. FF Stanley then slowly descended the ladder with the woman precariously balanced on his shoulders. He was assisted by Lt. Mullen and Fire Lieutenant Michael Doolin of Ladder Co. 23, in bringing her to safety. Because this rescue was performed on the A side of the building where the wall was compromised from the earlier explosion, along with leaking natural gas, this member placed himself at great personal risk. Because these actions were performed at great personal risk the Fire Commissioner highly commended Fire Fighter Paul T. Stanley of Rescue Company 2 in General Order No. 40 of 2011.

The Board recommends that the name of Fire Fighter Paul T. Stanley of Rescue Company 2 be placed on the Roll of Merit.

**7. Case of Fire Captain Sean B. Linnell, Ladder Company 4
Case of Fire Fighter Brian M. Mullen, Ladder Company 4
Case of Fire Fighter Kevin P. Ranahan, Ladder Company 4**

On October 30, 2011 at 0048 hours, Box 236 was struck for a building fire on Calumet Street, District 9. Upon arrival, Engine Co. 37 reported fire showing and ordered a second alarm. Engine Co. 37 ran a 2 ½" line to floor two and was immediately backed up by Engine Co. 14 with their line. Engine Co. 22 ran their line and attempted to gain access to floor three. All companies were met with extreme heat and heavy smoke conditions in spite of three 2 ½" lines operating. Ladder Co. 26 entered the building to conduct a primary search.

Upon arrival, members of Ladder Co. 4 heard screams from floor two of the attached three-story structure located at 39 Calumet Street. By then, the exposure fire had fully involved the rear porches of both buildings and extended to the roof structure of 39 Calumet Street. Fire Captain Sean Linnell, Fire Fighter Brian Mullen and Fire Fighter Kevin Ranahan, all of Ladder Co. 4, entered the building to search for trapped persons. Fire was visible in the rear of the unit and they encountered quickly worsening heat conditions to the point that they could not remain standing. A textbook search was conducted and, after forcing a door, an unconscious victim was found in a small bedroom on the left side of the hallway. All three members assisted carrying the person outside where they began resuscitation efforts using their Scott SCBA face pieces. They carried her down Calumet Street approximately 300 feet to Brigham Circle where they handed her over to EMS. The patient was intubated and transported to Brigham and Women's Hospital. Immediately after these actions, all members on scene were ordered out of the buildings and defensive operations were carried out due to a roof collapse. Upon later inspection, when the flames were knocked down, no portion of either building's roof remained and the fire had fully involved the apartments on both second floors, leaving nothing unburned. Both buildings were rendered uninhabitable.

Without the members of Ladder Co. 4 courageously exposing themselves to great personal risk due to the lack of protection from a charged line, the victim most assuredly would have perished in the fire. Because these actions were performed at great personal risk the Fire Commissioner highly commended Fire Captain Sean B. Linnell, Fire Fighter Brian M. Mullen and Fire Fighter Kevin P. Ranahan all of Ladder Co. 4 in General Order No. 42 of 2011.

The Board recommends that the names of Fire Captain Sean B. Linnell of Ladder Company 4, Fire Fighter Brian M. Mullen of Ladder Company 4, and Fire Fighter Kevin P. Ranahan of Ladder Company 4 be placed on the Roll of Merit.

8. Walter Scott Medal of Valor, Fire Lieutenant Glenn D. McGillivray, Engine Company 42

On October 17, 2011 at 0048 hours Box 2296 was struck for a building fire at 71 Westminster Avenue, District 9. The building is a large three story apartment building that covers an entire city block running from Westminster Avenue to Walnut Park with Wardman Road and Waldren Road running parallel front and rear.

Upon arrival Engine Co. 42 reported fire showing from the first floor of a three story brick building. First alarm companies encountered a partial building collapse with numerous trapped occupants on floors two and three yelling for help. Engine Co. 42 advanced their attack line to the collapsed area and began knocking down the heavy fire to protect the trapped residents on the upper floors. While advancing Engine 42's attack line with his crew at the A-B corner of the building, Fire Lieutenant Glenn McGillivray heard a woman yelling for help from a third floor window. Lt. McGillivray noticed that the woman was holding a small child in the window with her, with smoke pushing out of the window around her. Lt. McGillivray realizing that the woman was in a state of panic began communicating to her to remain calm and that they would be rescued by ladder. Seeing the fear in the woman, Lt. McGillivray was concerned that she would drop the child. At this point Lt. McGillivray told the woman to drop the child to him and he would catch him. She then dropped the child to him. Lt. McGillivray caught the child preventing serious injuries. Because this rescue was performed adjacent to the collapsed area of the building and the fact that the six year old child weighed 60 pounds, being dropped from the third floor window, this member placed himself at extreme personal risk. Because these actions were performed at extreme personal risk, the Fire Commissioner highly commended Fire Lieutenant Glenn McGillivray Engine Company 42 in General Order No. 40 of 2011.

The Board recommends that Fire Lieutenant Glenn D. McGillivray of Engine Company 42 be awarded Walter Scott Medal of Valor.

9. John E. Fitzgerald Medal for Most Meritorious Act, Fire Fighter Steven P. Bradley, ICT to District 9

On October 17, 2011 at 0048 hours Box 2296 was struck for a building fire at 71 Westminster Avenue, District 9. The building is a large three story apartment building that covers an entire city block running from Westminster Avenue to Walnut Park with Wardman Road and Waldren Road running parallel front and rear.

Upon arrival Engine Co. 42 reported fire showing from the first floor of a three story brick building. First alarm companies encountered a partial building collapse with numerous trapped occupants on floors two and three yelling for help. While assisting first alarm companies with initial rescues, Fire Fighter Steven Bradley, ICT to District 9 saw an elderly woman at a second floor window. She was having difficulty climbing out of the window. Firefighter Paul Stanley of Rescue Co. 2 had ascended a ladder to assist the woman. At this time, FF Bradley entered the building via the front stairwell which was heavily damaged by an explosion and fire. FF. Bradley made his way to the second floor apartment and assisted the woman out of the window, on to the shoulders of FF. Stanley, who carried the woman down the ladder to safety. Because this rescue was performed under heavy smoke and fire conditions, operating above the fire, alone, this member placed himself at extreme personal risk. Because these actions were performed at extreme personal risk, the Fire Commissioner highly commended Fire Fighter Steven Bradley, ICT to District 9 in General Order No. 40 of 2011.

The Board recommends that Fire Fighter Steven P. Bradley, ICT to District 9 be awarded John E. Fitzgerald Medal for Most Meritorious Act

IV. COMMENDATION

The Fire Commissioner is pleased to commend Fire Fighter Kevin Williams of Engine Company 18 for his actions performed on Thursday, April 19, 2012, while off duty. Engine Co. 16 responded to 1158 Adams St. for a reported cardiac arrest. Upon arrival, the members of Engine Co. 16 found two people performing CPR on a male patient lying on the sidewalk. One was an on-duty Deputy Sheriff and the other was FF Williams. FF Williams while travelling down Adams St. saw the man and pulled over his vehicle and initiated CPR with the Deputy Sheriff. Once the incident was over FF Williams could not be located as he had left the scene. Fire Lieutenant Michael Semeski, the Officer-in-charge of Engine Co. 16 was later able to find out from Boston EMS that early CPR efforts made a difference. By his actions, FF Williams displayed professionalism and dedication to duty. This commendation will be made part of his personnel file.

IV. COMMENDATION

I would like to commend all of the members of the department who staffed the Unified Command Centers as well as those who performed in an operational capacity during the 1812/July 4th celebrations. The movement of thousands of people to a place of refuge from threatening lightening strikes, without injuries or other significant problems, is a reflection of the well written Emergency Action Plans and preparations, which were developed by the staff of the Office of Field Services. The immediate response of the BFD Dive Team and Marine Unit to 4 calls for people in the water, demonstrates the value of training and the dedication of the team. The Communication Section of the celebration is also recognized for providing exceptional service allowing for a well coordinated, professionally managed event.

**HEADQUARTERS, FIRE DEPARTMENT
OCTOBER 5, 2012**

FIRE PREVENTION WEEK

The Boston Fire Department is committed to serving the community by protecting life, property, and the environment through prevention, education, emergency medical and fire service. To remind the public of the importance of this mission, and to engage them in participating in activities directed toward the common goal of achieving a fire safe community, the Boston Fire Department announces that Fire Prevention Week in the City of Boston will be observed from **October 7 through October 14, 2012.**

It is the sincere wish of the Fire Commissioner and the Chief of Department that all members of the department support Fire Prevention Week activities. This may be done by conveying to your family, friends and relatives those events which are in support of this worthwhile activity and by requesting their presence whenever possible.

The theme for Fire Prevention Week 2012 is **“Protect your Family from Fire!”** The campaign is designed to educate people about the importance of smoke alarms and all aspects of fire safety, as well as to encourage all to take the steps necessary to update and maintain their home smoke alarm protection.

The Fire Prevention Division will distribute **“Protect your Family from Fire!”** banners to each firehouse. These banners shall be displayed on the front of firehouses from 0800 hours, October 7, 2012, until 1700 hours, October 14, 2012.

Firehouses shall be open to the public between 1200 and 1700 hours and be limited to the public areas of the firehouse. The purpose of firehouse tours is for conveying information concerning fire department functions and fire prevention matters. When citizens arrive at a firehouse during Fire Prevention Week, the member on house patrol shall summon the commanding officer to the main floor to answer any questions regarding the department, or to have a suitable person assigned this duty.

If a person or group wishes a tour of the firehouse, all hands shall be summoned to the main floor to greet the visitors. Tours shall include explaining how an alarm is received at the firehouse followed by a demonstration of sounding the house gong, turning on the house lights, and if applicable, having a member slide down the pole. Members shall pay special attention to children during firehouse visits. They should talk to the children about knowing their home address, how to dial 9-1-1, **“STOP-DROP & ROLL”**, smoke detectors and having an escape plan to exit their home in an emergency.

When children are attending a firehouse tour, a member should dress in full bunker gear with an airpack and facepiece donned. Explain to the children that this is what firefighters look like when coming into their homes during a fire. Show them the apparatus, turn on the lights and siren, ask for questions, and encourage them to take home any safety pamphlets that you may have. If educational material is needed, it can be obtained by dialing the Public Information Office at 617-343-3415.

District fire chiefs are directed to take an active interest in Fire Prevention Week programs and activities in their districts. They shall facilitate and coordinate all requests for tours, fire drills, lectures, or other fire prevention activities brought to their attention. On each day tour during Fire Prevention Week, district chiefs shall have identified and prearranged for a fire drill at a minimum of one occupancy deemed suitable in their district.

The occupancy selected by the district chief may be any multi-residential development, school, dorm or business. Contact with the staff at these facilities should be made in advance with the understanding that fire department emergencies and operational contingencies may affect the ability of the fire department to attend and witness the drill on short notice.

These drills may be conducted by a company officer who will grade the drill as good, fair or poor. The officer shall promptly forward a 5A to Fire Prevention indicating the date and time of the drill, the grade given, facility name, address and the contact person. It would also be of benefit to both the fire department and the participating facility if the facility management documented participation in these drills on their own stationary and forward it to the Fire Prevention Division.

Firefighters are to be vigilant at all times for the presence of fire hazards along their route when traveling to and from work. BFD Permits are required for all buildings being erected, demolished, or significantly remodeled, as well as for the storage and use of flammable gases. Dilapidated buildings, rubbish accumulation and other hazards should be reported in accordance with abatement procedures as outlined in S.O.P. # 25. Should you come across an imminent fire hazard or emergency at any time, you should contact 911. Notify your District Fire Chief and/or Fire Prevention Division at extension 3-2191 if further assistance is required in determining that a less imminent hazard or violation exists.

All sworn members of the fire department are public employees that have taken an oath to support the Ordinances of the City of Boston. This includes the Boston Fire Prevention Code. In short, every uniformed member in the fire department is a *de facto* fire prevention inspector and should act with proper regard for this responsibility at all times. The public has reasonable expectations that department members have a general knowledge and interest in the subject of fire prevention. Therefore, during Fire Prevention Week, all members should have this subject upmost in their minds.

It is the sincere wish of the Fire Commissioner and the Chief of Department that all members of the department support Fire Prevention Week activities. This may be done by conveying to your family, friends and relatives those events which are in support of this worthwhile activity and by requesting their presence whenever possible.

The theme for Fire Prevention Week 2012 is **“HAVE 2 WAYS OUT!”** The campaign is designed to educate people about the importance of smoke alarms and all aspects of fire safety, as well as to encourage all to take the steps necessary to update and maintain their home smoke alarm protection.

The Fire Prevention Division will distribute **“HAVE 2 WAYS OUT!”** banners to each firehouse. These banners shall be displayed on the front of firehouses from **0800 hours, October 7 through 1700 hours, October 13, 2012.**

Firehouses shall be open to the public between 1200 and 1700 hours and be limited to the public areas of the firehouse. The purpose of firehouse tours is for conveying information concerning fire department functions and fire prevention matters. When citizens arrive at a firehouse during Fire Prevention Week, the member on house patrol shall summon the commanding officer to the main floor to answer any questions regarding the department, or to have a suitable person assigned this duty.

If a person or group wishes a tour of the firehouse, all hands shall be summoned to the main floor to greet the visitors. Tours shall include explaining how an alarm is received at the firehouse followed by a demonstration of sounding the house gong, turning on the house lights, and if applicable, having a member slide down the pole. Members shall pay special attention to children during firehouse visits. They should talk to the children about knowing their home address, how to dial 9-1-1, **“STOP-DROP & ROLL”**, smoke detectors and having an escape plan to exit their home in an emergency.

When children are attending a firehouse tour, a member should dress in full bunker gear with an airpack and facepiece donned. Explain to the children that this is what firefighters look like when coming into their homes during a fire. Show them the apparatus, turn on the lights and siren, ask for questions, and encourage them to take home any safety pamphlets that you may have. If educational material is needed, it can be obtained by dialing the Public Information Office at 617-343-3415.

District Fire Chiefs are directed to take an active interest in Fire Prevention Week programs and activities in their districts. They shall facilitate and coordinate all requests for tours, fire drills, lectures, or other fire prevention activities brought to their attention. On each day tour during Fire Prevention Week, District Chiefs shall have identified and prearranged for a fire drill at a minimum of one occupancy deemed suitable in their district.

The occupancy selected by the District Chief may be any multi-residential development, school, dorm or business. Contact with the staff at these facilities should be made in advance with the understanding that fire department emergencies and operational contingencies may affect the ability of the fire department to attend and witness the drill on short notice.

These drills may be conducted by a company officer who will grade the drill as good, fair or poor. The officer shall promptly forward a 5A to Fire Prevention indicating the date and time of the drill, the grade given, facility name, address and the contact person. It would also be of benefit to both the fire department and the participating facility if the facility management documented participation in these drills on their own stationary and forward it to the Fire Prevention Division.

Firefighters are to be vigilant at all times for the presence of fire hazards along their route when traveling to and from work. BFD Permits are required for all buildings being erected, demolished, or significantly remodeled, as well as for the storage and use of flammable gases. Dilapidated buildings, rubbish accumulation and other hazards should be reported in accordance with abatement procedures as outlined in S.O.P. # 25. Should you come across an imminent fire hazard or emergency at any time, you should contact 911. Notify your District Fire Chief and/or Fire Prevention Division at extension 3-2191 if further assistance is required in determining that a less imminent hazard or violation exists.

All sworn members of the fire department are public employees that have taken an oath to support the Ordinances of the City of Boston. This includes the Boston Fire Prevention Code. In short, every uniformed member in the fire department is a *de facto* fire prevention inspector and should act with proper regard for this responsibility at all times. The public has reasonable expectations that department members have a general knowledge and interest in the subject of fire prevention. Therefore, during Fire Prevention Week, all members should have this subject upmost in their minds.

I. HIGH COMMENDATION

On July 31, 2012 at 0854 hours Engine Co. 29 and Ladder Co. 14 responded to a central station alarm for 2 Fidelis Way in District 11. Upon arrival Ladder 14 ordered the box to be transmitted for a reported kitchen fire on floor four of a six-story brick housing complex. After entering the smoke-filled apartment Fire Fighter Mark Williams of Ladder Co. 14 and Fire Fighter Christopher Briggs of Engine Co. 41 (detailed to Ladder 14) were confronted by a man holding a pair of scissors facing them in an aggressive stance. FF. Williams, who in the past has received training as a correctional officer, told FF. Briggs to stay behind him. When the man turned towards the window, which was being vented from the aerial ladder by Fire Fighter Michal Andrade of Ladder Co. 14, FF. Williams approached and disarmed the man. With the assistance of FF. Briggs and Senior Fire Fighter Mariano Hernandez of Ladder Co. 14, they subdued the man, took him down the hallway out of the smoke and restrained him. Leaving FF Briggs and FF Williams with the man, FFSM Hernandez returned to the apartment to find an elderly woman lying on the kitchen floor. Her body was smoldering. After an initial rescue attempt the members determined the woman to be non-viable. They extinguished the fire on her body with water from the sink and left her body in place as a crime-scene was evident.

Due to the unusual circumstance of entering a fire building finding an armed, deranged man, disarming him and restraining him so that he could not harm himself or a fire fighter, FF. Williams placed himself at great personal risk. Therefore, the Fire Commissioner is pleased to highly commend Fire Fighter Mark Williams of Ladder Co. 14 and refers this case to the Board of Merit for further review.

II. UNIT CITATION

1.) The Fire Commissioner is pleased to commend the following named members of Ladder Company 25 for their actions on August 26, 2012 at 1452 hours at 89 Partridge Street in District 12. Upon arrival heavy fire was showing at the front door area due to an unattended propane gas grill malfunction resulting in fire extension to front siding and into the structure via the open front door. Ladder 25 was notified that there were elderly people still in the building. As the area around the front door was heavily involved in fire, the crew of Ladder 25 forced entry to the side door – only ten feet from the front door. They entered the heavily smoke charged building and located an elderly woman with a walker. She was confused and unable to move and exit the bedroom. There was an additional male occupant who was also helped to safety. Both occupants were safely guided out of the building. Without the quick actions of the crew of Ladder Co. 25 there would have been serious consequences to both occupants. The decisive actions of the crew of Ladder 25 were performed prior to having charged hose lines in place and carried

out in escalating fire and smoke conditions. The actions of these firefighters are a credit to themselves and to the fine traditions and standards of the Boston Fire Department.

Therefore, the Fire Commissioner's Unit Citation is hereby awarded to:

Fire Lieutenant Stephen O'Connor, Headquarters (detailed to Ladder Co. 25)

Fire Fighter Michael Gormley, Ladder Co. 25

Fire Fighter Arthur Brooks, Ladder Co. 25

Fire Fighter Brian Burke, Ladder Co. 16 (detailed to Ladder Co. 25)

2.) The Fire Commissioner is pleased to commend the following named members of Ladder Company 14 for their actions on July 31, 2012 at 2 Fidelis Way in District 11. After entering the smoke-filled apartment on floor four of a six-story brick housing complex Fire Fighter Mark Williams of Ladder Co. 14 and Fire Fighter Christopher Briggs of Engine Co. 41 (detailed to Ladder 14) were confronted by a man holding a pair of scissors facing them in an aggressive stance. FF. Williams, who in the past has received training as a correctional officer, told FF. Briggs to stay behind him. When the man turned towards the window, which was being vented from the aerial ladder by Fire Fighter Michal Andrade of Ladder Co. 14, FF. Williams approached and disarmed the man. With the assistance of FF. Briggs and Senior Fire Fighter Mariano Hernandez of Ladder Co. 14, they subdued the man, took him down the hallway out of the smoke and restrained him. Leaving FF Briggs and FF Williams with the man, FFSM Hernandez returned to the apartment to find an elderly woman lying on the kitchen floor. Her body was smoldering. After an initial rescue attempt the members determined the woman to be non-viable. They extinguished the fire on her body with water from the sink and left her body in place as a crime-scene was evident. The actions of these firefighters are a credit to themselves and to the fine traditions and standards of the Boston Fire Department.

Therefore, the Fire Commissioner's Unit Citation is hereby awarded to:

IV. COMMENDATION

The Fire Commissioner is pleased to commend Fire Fighter Nicholas Santangelo of Ladder Company 29 for his actions performed on October 9, 2012. FF Santangelo, while on a paid detail on Batterymarch St. in District 3, observed a fight among three men in the parking lot on Wendell St. One of the men threw a suitcase causing the suitcase to break apart. At that point, two of the men walked away leaving one of the individuals at the scene. FF Santangelo observed the man, later identified as a homeless person, walk over to the suitcase and remove a length of rope. The homeless man then walked around the corner and down an alley. After a few minutes FF Santangelo became curious about the actions of the man and decided to investigate. On arrival in the alley, FF Santangelo observed that the gentleman had tied the length of rope to a pole and had fashioned a noose that he had placed around his neck. The gentleman sat down on the ground in an attempt to hang himself. FF Santangelo rushed to the man's aid and was able to move the victim enough to lessen the tension on the rope, preventing the man from hanging himself. FF Santangelo called 911. Boston Police and Boston EMS responded. While awaiting their arrival, FF Santangelo engaged the man in conversation attempting to calm him and prevent him from causing further harm to himself. The actions of FF Santangelo saved this man's life. By his actions, FF Santangelo brought credit to himself and upheld the fine traditions and standards of the Boston Fire Department. This commendation will be made part of his personnel file.
