Notes;

The first Fire Alarm boxes in South Boston were numbered using the District / Station number system.

On April 28, 1864, Fire Alarm boxes in South Boston were renumbered using three digit numbers in the low 100 series.

A new four digit number system was introduced in 1914. New numbers in the 7100 to 7400 series were assigned to boxes in South Boston beginning in 1915.

The letter p next to the box number indicates phantom box.
