

RULES FOR THE DISTRIBUTION
OF
THE FIRE APPARATUS.

ENGINEER'S OFFICE, FIRE DEPARTMENT,
BOSTON, January 1, 1870.

To the Officers and Members of the Fire Department:

GENTLEMEN, — The new method of striking the Fire Alarm renders it necessary that the rules for the distribution of the apparatus should be explained, that it may be distinctly understood.

The accompanying document is furnished, definitely stating the numbers of each box, and their location, and with explanations for your guidance and instruction.

JOHN S. DAMRELL,
Chief Engineer Boston Fire Department.

CITY OF BOSTON.

FIRE-ALARM TELEGRAPH.

ALARMS are sounded by striking the number of the box upon the ALARM BELLS, upon the GONGS in the engine-houses, and upon the small bells in the SIGNAL-BOXES.

EXAMPLES: To announce the existence of a fire near Box No. 41 (Old South Church), the bells will strike FOUR, make a pause of a few seconds, and then strike ONE, thus: 4 — 1.

This will be repeated at intervals of about one minute.

For a fire near Box 145 (South Boston Point), the bells will strike ONE, make a pause, and then strike FOUR, another pause, and then strike FIVE, thus: 1 — 4 — 5.

N. B. — Complaints concerning the working of the Fire Telegraph (irregular striking of the bells or tapping of the boxes, broken wires, etc.) should in ALL CASES be made at the FIRE-ALARM OFFICE.

J. F. KENNARD,
Superintendent.

CITY HALL, 1870.

FIRE-ALARM TELEGRAPH.

LIST OF THE NUMBERS AND LOCALITIES OF THE BOXES.

LOCALITY OF BOXES.

- No. 2. Corner Charter street and Phipps place.
