## IX. HIGH COMMENDATIONS

At 2321 hours, November 14, 1987, Incident #44320, the Fire Alarm Office stilled Rescue Company 1 to 100 Federal Street, a high rise building known as the First National Bank Building in District 3.

Rescue Company 1 found an unusual situation at this building. Two men were working in a utility shaft, 20 ft. x 20 ft. This shaft runs about 20 floors and contains many of the building's utility services. The workers were repairing some equipment in the shaft by means of a motorized electrically operated bucket attached to two guide wires. The apparatus malfunctioned trapping the two men between the fifth and eighth floors. Access doors about 2 ft. x 2 ft. are provided in the stairwell every few floors. Members of Rescue Company 1 opened an access door on floor 8. Lieutenant John F. Joyce, Fire Fighter Edward T. Loder and Fire Fighter Paul G. Carey of Rescue Company 1 entered the shaft. Using proper procedures, Lieutenant Joyce decided that it would be necessary to rappel members into the shaft as the only method for the rescue of the workers. By means of friction devices and "D" rings attached to rappelling ropes, Fire Fighter Loder and Fire Fighter Carey descended into the shaft and each picked up a worker by attaching a life line to the firefighters D ring and sliding down to a safe area at the fourth floor level.

Fire Lieutenant Joyce had entered the shaft and by means outlined above lowered himself so that he could direct operations, see that safe procedures were undertaken and to retrieve the department's equipment. He was available for any eventuality that might be encountered.

Fire Fighter Richard R. Parker and Fire Fighter William T. Connors, Rescue Company 1, were an essential part of this operation acting as safety men for the members and trapped men within the shaft who were dependent upon these two firefighters to oversee and to assist them. These two firefighters professionally prepared, secured and guided the equipment used in this most unusual incident.

The fact that this operation was carried out in a routine manner, without injury, is directly attributed to the training by the department and by the officer and members of Rescue Company 1.

Because of the unusual personal risk involved in this operation, the Fire Commissioner is pleased to highly commend Fire Lieutenant John F. Joyce, Fire Fighter Edward T. Loder and Fire Fighter Paul G. Carey of Rescue Company 1 and refers their cases to the Board of Merit for further consideration.

#### X. COMMENDATIONS

Because of their performances at Incident #44320, mentioned above, the Fire Commissioner is pleased to commend Fire Fighter Richard R. Parker and Fire Fighter William T. Connors of Rescue Company 1, who were an essential part of the operation, and copies of this commendation are made part of their personnel files.

## VIII. COMMENDATION

On January 20, 1988, at 1950 hours, Incident #2579, District 6, Fire Fighter James B. Lavey, Ladder Company 19, who was off duty, was driving along Day Boulevard at the Carson Beach area when he observed an automobile which had struck and knocked down a cement light pole with the occupants of the vehicle still inside. Fire Fighter Lavey instructed the driver of his vehicle to stop. He ran back to the vehicle and observed two people inside, a man and a woman. The man was slumped over the steering wheel and the woman seemed to be in shock. The windows and doors of the vehicle were locked, preventing access. At this time an unidentified police officer arrived and with his assistance the driver's window was smashed out and the man was carried out onto the ground in front of the vehicle whereupon Fire Fighter Lavey immediately began CPR without any thought of protection for himself. He continued without relief until the arrival of Engine Company 39 and Ladder Company 18. Members of Ladder Company 19 immediately assisted with the inhalator and CPR. This continued until the arrival of the Boston City Hospital Ambulance. The woman did not appear to be injured and was assisted by the police.

Because Fire Fighter James B. Lavey performed this act without thought to his personal safety and in doing so brought credit to himself and the department and the praise of the many spectators present, the Fire Commissioner is pleased to commend him for his actions and makes this commendation a part of his personnel folder.

## IV. HIGH COMMENDATION

At 0310 hours, January 17, 1988, Incident #2142, Box 5156 (2 alarms) was struck for a fire at 194 Kelton Street, District 11.

Upon arrival, heavy fire was issuing from the third floor apartment, whereupon the members of Ladder Company 14 were informed of two women who were trapped in the third floor apartment that was involved with fire.

Fire Lieutenant Charles M. Parillo and Fire Fighter Richard F. Felton of Ladder Company 14 forced entry and ascended via the front stairway to the third floor level. They encountered a man on the stairway who appeared confused. He informed them that a woman was inside the apartment. At this point in time, heavy fire and smoke were issuing from the apartment. Forced to crawl into the apartment, due to the intense heat and smoke, Fire Lieutenant Parillo and Fire Fighter Felton located an unconscious woman lying on the floor. With considerable effort, under conditions of heat so intense that they were unable to stand, Fire Lieutenant Parillo and Fire Fighter Felton dragged the woman from the apartment to the landing of the stairs where the woman was placed on the shoulders of Fire Lieutenant Parillo and carried to the street. Immediately after the rescue, flashover occurred, engulfing the entire room.

Because of the great personal risk involved in the rescue of the woman, who had suffered burns over forty percent of her body, and by their quick action, thus saving her life, the Fire Commissioner is pleased to highly commend Fire Lieutenant Charles M. Parillo and Fire Fighter Richard F. Felton of Ladder Company 14 and recommends that their cases be referred to the Board of Merit for further consideration.

## IV. HIGH COMMENDATION

On February 26, 1988, at 1300 hours, Box 2621 (2 alarms) was struck for a building fire at 25 Stellman Road, District 12.

Upon the arrival of District 12 and Engine Company 53, heavy fire was issuing from the first floor overlapping the second.

Upon notification by a civilian that a child was on the first floor, Fire Fighter (Aide to District Fire Chief) Paul D. Hynes, was ordered to conduct a search. Fire Fighter (Aide to District Fire Chief) Hynes entered via the front door, following Engine 53's line where members were in the process of knocking down the fire in the living and dining rooms.

Fire Fighter (Aide to District Fire Chief) Hynes entered a bedroom to the left and completely searched the room to no avail. He then located a door leading to a hall where he encountered intensive heat which forced him to crawl on hands and knees, locating an unconscious child and carried her to the street. Acting Lieutenant William Austin, Rescue Company 2, immediately performed CPR on the child who then was transported by Health & Hospitals to the Faulkner Hospital.

Because this rescue was accomplished during extreme heat, fire and smoke conditions, and performed at great personal risk and without regard for his personal safety, the Fire Commissioner is pleased to highly commend Fire Fighter (Aide to District 12) Paul D. Hynes for his actions and refers his case to the Board of Merit for further consideration.

## V. CHANGE IN DESIGNATIONS OF FIRE ALARM BOXES

## III. HIGH COMMENDATIONS

On January 23, 1988, at 2115 hours, Fire Fighter William D. Trojano of Ladder Company 11, was exiting his home in Savin Hill, Dorchester, when he observed a group of young adults in pursuit of three teenage boys. One of the youths fell to the ground and was jumped upon and beaten by the group.

Fire Fighter Trojano proceeded in pulling the men off the boy and led the bleeding youth into his home where he administered first aid. Moments later he heard screams outside his home and observed the victim's two friends pursuing the attackers with knives. Fire Fighter Trojano immediately ran out of the house, shouting for the boys to stop, when one of them turned on him with a knife, threatening to use it. Fire Fighter Trojano succeeded in removing the knife from the youngster. He then offered his home as a refuge until the arrival of the police.

Because Fire Fighter William D. Trojano performed this act with complete disregard for his own safety and in doing so brought credit to himself and the department, and the praise of both the City Council and the neighborhood, the Fire Commissioner is pleased to highly commend him for his actions and refers his case to the Board of Merit.

\*\*\*\*\*

On January 17, 1988, Box 3336 (working fire) was struck for a fire at 1 Nottingham Street, District Seven. Upon the arrival of Engine Company 24 and Ladder Company 23, heavy fire was observed at the second floor front of a 2 1/2 story dwelling. Members were notified by neighbors and police officers at the scene of their repeated attempts to effect the rescue of a four year old boy on the second floor.

Advancing to the top of the stairs leading to the second floor and upon receipt of water in Engine Company 24's line which stopped the further advance of heavy fire, Fire Captain James M. Flaherty, Headquarters (detailed to Ladder Company 23) made his way crawling to the rear of the apartment where he located and removed the four year old child to the street, administering mouth to mouth resuscitation enroute. Fire Captain Flaherty received burns to both thighs in effecting the rescue.

Because this act was performed under adverse conditions and at extreme personal risk, the Fire Commissioner is pleased to highly commend Fire Captain James M. Flaherty, Headquarters (detailed to Ladder Company 23) and refers his case to the Board of Merit for further consideration.

## IV. COMMENDATIONS

At this same fire, Fire Lieutenant Bernard T. Ryan, Fire Fighters Robert J. Munroe, Michael J. Morrissey, Jr., Engine Company 24, and Fire Fighter William J. McCarthy, Ladder Company 23, are commended for their performance of duty under conditions involving unusual risk..

The Fire Commissioner is pleased to commend them for their actions and makes these commendations a part of their personnel file.

\*\*\*\*\*

On February 26, 1988, Engine Company 8 and Ladder Company 21 responded to 2 Grady Court, District 1. Upon arrival, it was determined that a male adult, with an infant in his arms, was threatening to jump. Members of Engine Company 8 were positioned alongside the building in the event the baby was dropped.

A struggle ensued between a police officer and the distraught person at the top of the stairs on the roof. Fire Fighter Peter J. Dolan, Tower Company and Fire Fighter Mario J. Dell'Orfano, Engine Company 9, both detailed to Engine Company 8, hearing of the struggle, raced to the third floor landing and assisted in removing the infant from the male person's arms. This was accomplished with complete disregard for their own safety, not knowing if the person was armed with a weapon. The infant was carried to safety by the firefighters.

The Fire Commissioner is pleased to commend Fire Fighter Peter J. Dolan, Tower Company, and Fire Fighter Mario J. Dell'Orfano, Engine Company 9, for their actions and makes this commendation a part of their personnel folders.

BY ORDER OF FIRE COMMISSIONER LEO D. STAPLETON

BOARD OF MERIT

The Board of Merit, consisting of the Fire Commissioner and the Deputy Fire Chiefs, has considered all meritorious acts referred to it during the year 1987. After careful consideration and study, the Board submitted the following recommendations which are hereby approved by the Fire Commissioner:

1. Case of Fire Fighter James M. Hardy, Ladder Company 19

Upon arrival at a building fire, Box 7334, Incident #4293, at 0836 hours, on February 5, 1987, Fire Fighter James M. Hardy, Ladder Company 19, entered a three story building, heavily charged with heat, smoke and gases, on three separate occasions in repeated rescue attempts.

He first entered the second floor with Fire Fighter James B. Lavey, Ladder Company 19, and they both made a thorough search for occupants, without success.

He next ascended the aerial with Fire Fighter James E. Prokop, Ladder Company 19, and was informed by a woman and child on the adjoining roof that someone was still inside. Both members entered down through the roof in another unsuccessful attempt. Upon return to the roof, Fire Fighter Prokop assisted the woman and child to safety and Fire Fighter Hardy once again entered the top floor through the roof, even though he was suffering from exhaustion and his vibralert was sounding on his breathing apparatus.

With complete disregard for his own safety and at extreme personal risk, he searched until he located a young child and removed him to safety up to the roof, down the aerial to the street, performing mouth to mouth resuscitation until relieved by other members.

The Fire Commissioner highly commended Fire Fighter James M. Hardy in General Order No. 12 of 1987.

The Board recommended that Fire Fighter James M. Hardy, Ladder Company 19, be awarded the John E. Fitzgerald Medal for the Most Meritorious Act.

2. Case of Fire Fighter (Inspector) Robert J. Watson, Fire Prevention Division

On May 6, 1987, at approximately 1110 hours, Fire Fighters (Inspectors) Robert J. Watson and Paul Hicks of the Fire Prevention Division, while on assignment in District Five, observed smoke issuing from several windows on the top floor of a four story brick apartment building at 101 Dale Street and reported same to Fire Alarm via radio. Both members immediately entered the building and began a floor by floor search for occupants. Fire Fighter (Inspector) Watson, upon ascending the front stairs to the top floor, encountered

May 24, 1988

a heavy smoke condition while hearing cries of distress from within an apartment. He entered this apartment which was fully charged with heat and smoke and located a woman in a semiconscious condition. He carried the woman down the front stairs and outside to the street where he and Fire Fighter (Inspector) Hicks performed first aid to the victim until arrival of the ambulance.

Because Fire Fighter (Inspector) Robert J. Watson, Fire Prevention Division, performed this rescue under difficult conditions, without the use of protective clothing and respiratory equipment, and at great personal risk, the Fire Commissioner highly commended him in General Order No. 33 of 1987.

The Board recommended that the name of Fire Fighter (Inspector) Robert J. Watson, Fire Prevention Division, be placed on the Roll of Merit.

3. Case of Fire Fighter John F. Hart, Ladder Company 18

On September 26, 1987, at approximately 0658 hours, Fire Fighter John F. Hart of Ladder Company 18, while enroute to work, discovered a building fire at 10 Monument Street, Charlestown. The fire involved the second floor and attic area of a two and a half story wood frame dwelling.

Fire Fighter Hart proceeded to sound his automobile horn, while instructing civilians to notify the fire department. Box 4161 was transmitted. He then immediately entered the building and awoke occupants on the first floor. He then made his way to the second floor and, while encountering heat and smoke, continued his search, arousing more sleeping occupants whom he led to the street.

Upon the arrival of Engine 50, members were informed by Fire Fighter Hart as he was leaving the building that it had been evacuated. Fire Fighter John F. Hart, performed this act at great personal risk, without the benefit of protective equipment, and before the arrival of apparatus.

Because of his quick actions and without thought for his personal safety, while preventing possible tragedy and reflecting great credit upon himself and the department, the Fire Commissioner highly commended Fire Fighter John F. Hart in General Order No. 51 of 1987.

The Board recommended that the name of Fire Fighter John F. Hart, Ladder Company 18, be placed on the Roll of Merit.

4. Case of Fire Fighter Robert M. Staunton, Ladder Company 6

At approximately 0815 hours on October 17, 1987, Fire Fighters Robert P. McNiff and Robert M. Staunton of Ladder Company 6, while off duty and driving south on Dorchester Avenue, noticed a man running with an object held under his jacket and being pursued by a Carney Hospital Security Officer.

Fire Fighter Staunton immediately chased and caught the suspect in a yard on St. Gregory Street. He subdued the suspect and held him to the ground until the arrival of Boston Police Officers who had been summoned by Carney Hospital Security.

This act was performed with great effort and great personal risk, as the suspect was in his early twenties, with a big and powerful build, and kept one hand under his jacket until subdued by Fire Fighter Staunton. It was not until the suspect was arrested that it was determined that he was holding a handbag and not a weapon.

The Fire Commissioner commended Fire Fighter Robert M. Staunton in General Order No. 54 of 1987.

The Board recommended that Fire Fighter Robert M. Staunton, Ladder Company 6, be awarded the Distinguished Service Award.

5. Cases of Fire Lieutenant John F. Joyce, Rescue Company 1  
Fire Fighter Edward T. Loder, Rescue Company 1  
Fire Fighter Paul G. Carey, Rescue Company 1

At 2321 hours, November 14, 1987, Incident #44320, the Fire Alarm Office stilled Rescue Company 1 to 100 Federal Street, a high rise building known as the First National Bank Building in District 3.

Rescue Company 1 found an unusual situation at this building. Two men were working in a utility shaft, 20 ft. x 20 ft. This shaft runs about 20 floors and contains many of the building's utility services. The workers were repairing some equipment in the shaft by means of a motorized electrically operated bucket attached to two guide wires. The apparatus malfunctioned trapping the two men between the fifth and eighth floors. Access doors about 2 ft. x 2 ft. are provided in the stairwell every few floors. Members of Rescue Company 1 opened an access door on floor 8. Lieutenant John F. Joyce, Fire Fighter Edward T. Loder and Fire Fighter Paul G. Carey of Rescue Company 1 entered the shaft. Using proper procedures, Lieutenant Joyce decided that it would be necessary to rappel members into the shaft as the only method for the rescue of the workers. By means of friction devices and "D" rings attached to rappelling ropes, Fire Fighter Loder and Fire Fighter Carey descended into the shaft and each picked up a worker by attaching a life line to the firefighters D ring and sliding down to a safe area at the fourth floor level.

Fire Lieutenant Joyce had entered the shaft and by means outlined above lowered himself so that he could direct operations, see that safe procedures were undertaken and to retrieve the department's equipment. He was available for any eventuality that might be encountered.

Fire Fighter Richard R. Parker and Fire Fighter William T. Connors, Rescue Company 1, were an essential part of this operation acting as safety men for the members and trapped men within the shaft who were dependent upon these two firefighters to oversee and to assist them. These two firefighters professionally prepared, secured and guided the equipment used in this most unusual incident.

The fact that this operation was carried out in a routine manner, without injury, is directly attributed to the training by the department and by the officer and members of Rescue Company 1.

Because of the unusual personal risk involved in this operation, the Fire Commissioner highly commended Fire Lieutenant John F. Joyce, Fire Fighter Edward T. Loder and Fire Fighter Paul G. Carey in General Order No. 3 of 1988.

The Board recommended that the names of Fire Lieutenant John F. Joyce, Fire Fighter Edward T. Loder and Fire Fighter Paul G. Carey, Rescue Company 1, be placed on the Roll of Merit.

6. Award of Recognition

District Fire Chief Paul F. Cook, Communications Division

The recipient of the City of Boston Award of Recognition for 1988 is District Fire Chief Paul F. Cook of the Communications Division, Planning and Logistics Section.

In addition to his multiple duties as Director of Civil Defense, Chief Cook has successfully developed and completed numerous programs that have had a most positive effect on the operation and efficiency of the department.

Included in these accomplishments are improved fire protection services at the Boston Gas LNG Facility, Commercial Point, improved water supplies for fire fighting city-wide, improved fire protection on all M.B.T.A. sites and the Sumner and Callahan Tunnels, design of a new fire station for Fort Hill Square, renovation of the fire station on Hanover Street, development of an evacuation plan for the city, increased protection at Deer Island House of Correction, exclusion of hazardous cargoes from the proposed depressed artery and several other progressive achievements.

His forty one years of service, both in fire fighting and headquarters activities, are a credit to District Fire Chief Cook and to the Boston Fire Department.

The Fire Commissioner, upon recommendation of the Board of Merit, hereby awards the Award of Recognition to District Fire Chief Paul F. Cook of the Communications Division, Planning and Logistics Section.
