## FIRE-ALARM TELEGRAPH.

BROWN S. FLANDERS, *Superintendent*. Salary, \$2,300, and the use of a horse and vehicle. Office, City Hall. He has also the care and charge of all the public Bells and Clocks.

Cyrus A. George, *Asst. Superintendent*.

*Operators*, Granville S. Mendell, Charles M. Chaplin, Uzziel Putnam.

James L. Crowley, *Asst. Operator and Batteryman*.

*Repairers*, George S. Thom, Wm. H. Godfrey.

[The above are appointed by the Board of Fire Commissioners.]

A constant watch is kept at the office, City Hall, night and day, by the operators. Each operator serves two alternate terms, of three hours each, as principal, and the same as assistant operator; so that twelve hours' service at the office, out of every twenty-four, is required from each operator. No operator is permitted to sleep during his watch, unless expressly relieved by some one else, by consent of the Superintendent.

Each operator is accountable to the Superintendent for any mistake that may occur at the office during his hours of duty.

An accurate account is kept of the time of giving each alarm, and of the station from which it originates, and all other necessary information.

Alarms are transmitted to the Central Office, from the Signal Stations or Boxes, by pulling a slide in the box. The police-officers and one other person resident near each station have keys to the boxes.

Nos. 41, 42, 43, 45, 46, and 49 have been supplied with the "Tooker keyless door."

ALARMS are sounded by striking the number of the box upon the *Alarm Bells* and upon the *Gongs* in the Engine-Houses for three rounds.

EXAMPLES: To announce the existence of a fire near Box No. 41 (Old South Church), the bells will strike *four*, make a pause of a few seconds, then strike *one*, thus: 4—1. This will be repeated at intervals of about one-half minute.

For a fire near Box No. 145 (South Boston Point), the bells will strike *one*, make a pause, then strike *four*, another pause, then strike *five*, thus: 1—4—5.

*Second Alarms* are sounded by striking ten blows followed by box number. *Third Alarms* are sounded by striking ten blows three times thus: 10—10—10.

In cases where the entire department are required, alarms are sounded by striking twelve blows three times, thus: 12—12—12.

*Return Signal*.—Notice will be given on the bells and gongs by striking one blow four times, thus: 1—1—1—1; upon which the several pieces of apparatus on their way to the fire will return to their quarters.

In cases where Hook and Ladder Companies *only* are wanted, signal to be given by striking ten blows once, with the number of the Company struck twice, thus: Hook & Ladder No. One, 10—1—1. Hook and Ladder No. Four, 10—4—4. Hook & Ladder No. Seven, 10—7—7.

If more than one Hook & Ladder Company is wanted, the signal will be given thus: Hook & Ladder One and Three, 10—1—1—3—3. Hook & Ladder Two and Four, 10—2—2—4—4. Hook & Ladder Five and Seven, 10—5—5—7—7.

Alarms are usually given about half a minute from the time the box is operated.

DIRECTIONS TO BE OBSERVED IN CASE OF FIRE.

Get the key of the nearest box to the fire.

Open the box—pull the hook all the way down *ONCE*, and let go.

Wait *one full minute* for the sound of the bells.

If you hear no sound, *pull again*; and the *third* time, if you get no sound.

If you fail the third time, go to the next nearest box and do the same there; but do not touch any other box if the nearest one gives the alarm.

After giving the alarm, remain awhile, if *possible*, by the box, so as to direct the firemen to the fire.

No person will give alarms for the same fire (after the first alarm has been given) without an order from an Engineer; and the person so ordered will be *sure* to go to the *same* box from which the first alarm was given, and report the same to the Chief Engineer. If, *however*, a fire breaks out while another is burning in a different section of the city, a *second* alarm can be given by a police-officer without waiting for an order from an Engineer.

CAUTION TO PERSONS HOLDING SIGNAL KEYS.

1. Never open the box or touch the apparatus, except in case of fire.

2. Never sound the alarm for fire seen at a distance.

3. Be reasonably sure there is a fire before sounding the alarm.

4. Be sure the box is locked before leaving it.

5. Never let the key go out of your possession, except to some responsible person, to give an alarm of fire, and be sure the key is returned.

6. If you remove from your house or place of business return the key to the Fire-Alarm Office without delay.

THE MERIDIAN BELLS. — Fifty-three bells, one hundred and one gongs, sixty tappers, and fifteen vibrators, at their various locations on churches, school-houses, in engine-houses and R.R. depots, are struck from the Fire-Alarm Office, *precisely* at noon, every day. Correct time is furnished by telegraph from Cambridge Observatory, so that absolute accuracy is secured.
